Also in the mean time you can try the fixes mentioned below.

Black/White Screen is one of the most common problem in mobile phones and tablets. Usually when you open an app, you will see a black screen for few seconds and then app will crash with or without an error message. There are few ways to fix this problem. Most of the times, it might be a temporary loading issue. You just need to press the recent applications menu (usually the first left button) in your phone. Then you close the app that has this issue. Now open the app again. It may work normally. Try to restart your iPhone / iPad. Press the power off button for few seconds and then choose restart from the menu to restart your device. Now you can try opening the app, it may work fine. If none of the above working, you can wait till your phone battery drains and it turns off automatically. After that put it to charge, and press the power button. It may work after this. Finally, if you can't fix it with anything, you may need to uninstall the app and re-install it. iOS usually provides an option to restore settings and content from iCloud backup, if you've enabled it previously. Even in some rare cases, the re-install step also don't work. If that is your case, try installing older versions of the app. Good luck! There are few situations that may cause the load issue in mobile apps. The Project Makeover app server may be down and that is causing the loading issue. Please try after few minutes. Your wifi / mobile data connection not working properly. Please check your data connection. Too many users using the app at same time. Please try after few minutes. How to solve Project Makeover login issue or account related issues. If you have login or account related issue, please check the following steps. The Project Makeover server may be down and that is causing the login/account issue. Please try logging in after few minutes. Your wifi / mobile data connection not working properly. Please check your data connection. You may be trying with wrong login credentials. Please confirm the details that you are entering is correct. If you're using third-party social networks to login such as facebook, twitter, google etc, check whether that service is working properly by visiting their official website. Your account may be banned or deactivated for activities. Please read error messages. Check your wifi / internet connection for connectivity. Please check your mobile storage space. If you don't have enough space in your disk, the app can't be installed. Verify that the app you're trying to install supports your iOS version. Please check your wifi / mobile data connection and verify that it is working properly. It may be down and stopping you from updating the Project Makeover app. Confirm that you have enough storage space in your phone to download updates. If you don't have enough storage space, it can be blocked or not. If it is not enabled, please enable it. Also if you don't get notification alert sounds, re-verify that you don't accidentally muted the app notification sounds. Give desperately needed makeovers to help people achieve their dreams! NEW EVENT: Arcane Art! NEW SALE: NY Style! 60+ new levels! I'm really enjoying this game so far, but there are a few things that feel a bit off... The story villain feels too cliché (like the one from 101 Dalmatians or Yzma, both Disney) and makes the story uninteresting. The faces you can choose from for your avatar are kind of ugly. The levels themselves get a little dull - why not some more variation in the mini-games? The good things is that the game have a lot of elements in terms of make-overs - both rooms, other people and your avatar. I love that you get new customization options and that you get to see things develop and get really pretty. Feels rewarding. But yes, my guess is I'll grow tired of the stereotypical candy crush mini-game spin-off really fast - too bad as the game actually had potential! Stop doing what everyone else are doing, people, and start getting a bit creative! @ Its a really fun game until you come to levels 30+ i have spent hours on trying to complete them. If you dont complete them you have no money to move on in the game. You only get 25 moves to remove t-shirts, red spots and fabric. Which is impossible. Otherwise the game is really fun. When I saw an article about this app I honestly couldn't believe someone would create such an awful app. It's degrading and teaching kids that it's not OK to look the way you do. Seriously?! It makes me so, so sad that this app even exists but even more sad that people actually let their kids use it. The values it teaches are so excluding and stereotypical. It's not "just for fun", it will definitely influence young kids and how they'll treat others. Makeovers! During the game, players complete Match-3 puzzles to earn coins which are then spent to improve a guest's style and self-confidence, helping them to overcome whatever physical or mental roadblock is preventing them from living their best life. I wrote more than 40 makeovers, including all dialogue for the regular cast of characters and their guests. See the video examples below to see the makeovers—and my dialogue—in action! I'll also spotlight a few lines of dialogue from one of my personal favorites, Episode 18: Throwing in the Towel, in which the player helps a former championship boxer to revitalize her style and her gym in order to bring in new clients. • • • Below are some additional dialogue samples from Episode 29: Fallen Star, in which a former singing sensation needs help re-finding his voice. • • • On Project Makeover, we never shied away from puns, as evidenced in Episode #27: Fish Out of Water, during which the player helps a marine biologist prepare her look and her office for a big promotion: Backstage Dramas! These optional stories, unlocked by players as they progress through levels, deepen the story of Project Makeover, allowing the cast to interact in new, exciting, and oftentimes dramatic ways! I wrote more than 30 of these backstage dramas while expanding the cast with new characters and putting them into even crazier situations! Check out the video below to see one of the backstage dramas, Breaking News, in action! These Backstage Dramas run between 3-5 scenes, with each chapter ending on a dramatic cliffhanger. Below are some specific pieces of dialogue that I enjoyed writing for these zany miniseries. • • • User Interface Text! Additionally, I was responsible for crafting all player-facing text for the game, which included Blueprint text to establish a plan for setting up each quest for a successful makeover... Preview screens for each new character... Thank You letters from the characters that share what happens after the makeover has ended... And Release Notes to notify players of new game updates and features. IP Crossover! In April 2022, Project Makeover launched its first major crossover with Netflix's blockbuster Queer Eye show. During these special makeovers, the Fab 5 took the place of Project Makeover's main characters, helping the player to create a fabulous look for a guest. I served as lead writer for the event, crafting all dialogue for the Fab 5 personalities—Jonathan Van Ness, Bobby Berk, Karamo Brown, Antoni Porowski, and Tan France. PocketGamer.biz broke the news of the partnership on April 20, 2022: "We're thrilled about this partnership with Magic Tavern and can't wait to see what fans come up with alongside Bobby, Tan, Karamo, Jonathan, and Antoni." - David Collins, Scout Productions CEO and Queer Eye creator Above: Project Makeover X Queer Eye social media announcement video.
